OPERATIONS:

JOB DESCRIPTIONS:

I have been working with HR to update the job descriptions for all positions within the facility. HR Director Sowers requested that I submit the revised description for "Warden" to the prison board for final approval. The last time this job description was updated was 1989. It has been revised to reflect the current standards and duties. Both the 1989 copy and the revised copy (changes highlighted) are attached. I am seeking final board approval, on behalf of Human Resources, for the revised version.

MAJOR MAINTENANCE / FACILITIES UPDATES:

Kronos Time Keeping Software – Still building and testing the software. Captain Wolford and Tammy St. Clair have participated in approximately 2-3 virtual meetings per week. Anticipated go-live date is still late February. However, due to Kronos canceling several meetings, this may have to be pushed until March.

Vehicle Sallyport Drain – Last month, I informed the board that our draining trench in our vehicle sallyport was deteriorating. After discussions with our maintenance staff, the project is outside their capabilities and quotes were obtained. Cost for the project was \$6,877. Project was completed on Jan 26, 29 and Feb 1. Will remove from agenda moving forward.

Air Purification System – We received notification on Jan 30th, that we were awarded the PCCD grant that we applied for in the amount of \$1,016,108 to install an air purification system in the prison ductwork and vehicles. This system should greatly reduce the significance of any airborne virus, bacteria, fungi, etc that both staff members and inmates could be exposed to in the closed environment. Once the award notification is signed off on by the commissioners, we will follow up with the grant writer and Tara Keilman for further direction. There is zero cost to the county for this project.

POSSIBLE SOLAR PROJECT

Update on the possible solar array on the roof and prison hillside.On January 17th, we again met with The BAI Group and Tremco to review their final data analysis. They are projecting that over a 30 year term, the county can save \$2,187,000 in electrical costs by converting to solar. Once again, the project would be at zero cost to the county, including the initial engineering survey to ensure the roof can support the panels. If the board would like to move forward, I can arrange a presentation for interested members of the board where BAI can review the entire scope of the project. A copy of their power point presentation is attached.

CERT TRAINING

Training was completed over the last two months for members of our CERT (Correctional Emergency Response) Team. Training included defensive tactics, cell extractions, Taser, and formation/tactical response. I'm glad to say that we had 11 of our newly hired officers volunteer to become members of our team and completed this training alongside our veteran CERT members

ANNUAL STATISTICAL REPORT

This report was completed by our Records Officer and is attached.

ANNUAL VIDEO COURT REPORT IS ATTACHED

The Annual Video Court Report is attached for your review. For 2023, the prison conducted 2,687 video proceedings at the facility. The majority of the proceedings conducted are for the Commonwealth Court (1,438) and for District Magistrate Offices (442). Since the video court's inception in the spring of 2021, a total of 8,788 proceedings have been conducted via video.

MARCH MEETING

The March prison board meeting is scheduled to be held at the prison, however we have a scheduling conflict for the conference/training room. We are hosting a 2-day instructor level Pepperball training session on that date and they will need the conference/training room to conduct the training. In return for hosting it, we receive two instructors certified for free. Due to the prison board meeting being a public meeting, we cannot move it into the secure area of the facility. Does the board want to change the date of the meeting and remain at the prison in March, or just have the April meeting at the prison rather than March's?

FOOD SERVICE REPORTS OCT - JAN

**Cambria County Prison
Monthly Progress Report
Food Service Department
January 2024**

Date: February 8, 2024

Completed by: Jeff Callihan

During the month of January I continued working the transitional duty and was able to do the day to day paper work and ordering for the food service department. Officer Trexler has gone back to his regular bid officers' position.

During the month of January they continued working on basic food service practices and training inmate workers in the day to day duties as I am unable to do training with the inmate work force while still being on transitional duty.

MONTHLY COST PER MEALS

The cost per meal for the month of January was \$1.4565 for a total food cost of \$51,700.79. This was an increase of \$0.0149 from the month of December.

UP-COMING MONTHS

During the month of February they will continue working on basic food service practices and training inmate workers

I will also continue working with Joe Medvan from the Nutrition Group on ways to try and help with rising food costs and shortages.

Roofing and Building Maintenance

Key Project Experience

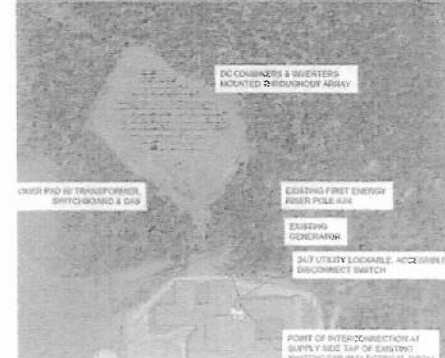

Community College of Allegheny County (CCAC) – North Campus

Project was completed in 2021.

BAI provided financing via a PPA

BAI is provided Engineering, Procurement and Construction services.

CCAC is expected to save more than \$700,000 over PPA term

Key Project Experience

Moniteau Area School District

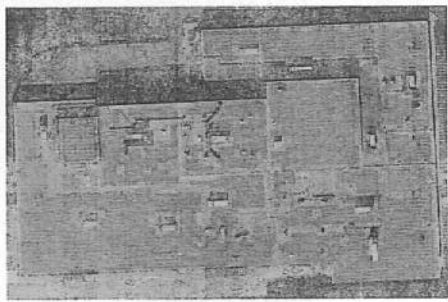

Project is under construction.

BAI is providing financing via a PPA

The project includes two locations accommodating ~2MW of solar.

The project also includes a significant roof restoration component.

Moniteau is projected to return more than \$2,000,000 in savings to their operating budget

Key Project Experience

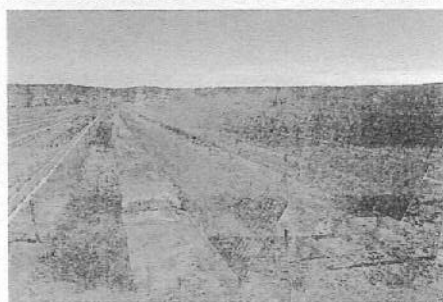

Cornell School District

BAI is building a 1.33MW array that will provide 100% of school electricity needs

BAI is providing financing via a PPA

The project also includes a significant roof replacement component.

Cornell is projected to save more than \$2,500,000 over 30-yr term

Key Project Experience

25 MW Solar Construction

BAI is performing various parts of the scope for this 100-acre solar array project including construction of a 1-mile distribution interconnection power line.

BAI's scope also includes significant portions of the mechanical and electrical contracts.

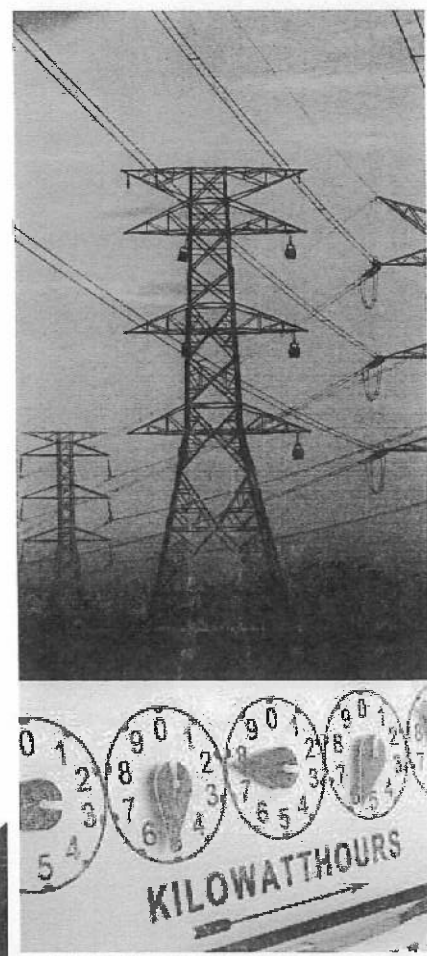

BAI is also providing services in some of the smaller associated parts of the project including inverter pad development, construction survey stakeout, tree-clearing, and civil scopes.
